

Our mission is to reduce the disparities in dental health care by providing preventive and basic dental services, education, and outreach programs to low income, uninsured, and underinsured children and adults.

Dear Dental Colleagues,

December 20, 2011

Since 2008, Chester County Community Dental Center, a nonprofit dental health center located in Coatesville, PA (*a federally designated Medically Underserved Area, MUA*) has provided quality, affordable dental services to low income residents of Chester County. Four years later, we are ready to expand our ability to provide endodontic and oral surgery procedures in addition to restorative and pediatric services. This is a unique opportunity to join a dedicated team and make a difference in the lives of critically underserved families in central and western Chester County.

We are looking for a talented, experienced dentist to work in a high energy, community focused dental center. Our office offers daytime hours Monday through Friday and one evening a week. We anticipate hiring a self-motivated, caring individual who is invested in the health and well-being of our underserved patient population. The position will include one evening until 7pm. Scheduled hours are flexible and will be based on input from the successful candidate, our clinical team and manager.

Our patients need your smile, expertise and encouragement to improve self care and change the mind-set of this underserved region. Our new team dentist will be responsible for coordinating comprehensive care plans with the strong support of 2 EFDAs, 2 Public Health Dental Hygiene Practitioners with local anesthesia certification and one Dental Assistant. Conversational Spanish would be a most valuable asset but is not required at the time of hire.

Please send an introduction letter and CV to JGleber@ChesCoDental.org. For more information about Community Dental, please check our website at www.chescodental.org or visit us at 744 East Lincoln Hwy in Coatesville, PA 19320 after January 1st.

Please share this competitive opportunity so we find the perfect candidate to join our mission driven dental team soon, thank you.

Yours in health,

Jaclyn

Jaclyn Gleber, RDH, PhD
